## THE BILINGUAL CLUB

---

*Do you want your children to learn English or French ? Do you want to strengthen their level in these languages ?*

*We believe that learning a language should be foremost in the context of speaking a language. As such, our language workshops are primarily intended to develop the ability to communicate in a multicultural environment. In small groups, the children will gain confidence, speak more easily thanks to fun and stimulating activities, and they will internalize and assimilate more easily to the grammar rules.*

### 4 SECTIONS, 4 AGE GROUPS

**« Little travellers » section, for children from 4 to 6 years old**

At this age, children learn through playing, singing, listening to stories, and participating in creative or motor skills activities. The teaching revolves exclusively around the practice of the oral language. Throughout the year, they discover the world around them in another language and cross new frontiers.

**« Globetrotters » Section, for children from 6 to 8 years old**

At this age, children are curious, eager to broaden their horizons. For them, the teaching is primarily the acquisition of the spoken language, but we also support them in appropriation of reading and writing. Through stimulating activities, they learn to describe the world around them in another language.

**« Great Explorers » Section, for children from 8 to 11 years old**

At this age, children are independent in their reading and writing. While remaining ludic and oriented towards the development of communication skills, our teaching is also directed towards contextual learning of grammar rules and a more systematic practice of writing.

**« Teenagers » Section, for children from 11 to 14 years old**

Teenagers are involved in the world around them. Thanks to a choice of various topics adapted to them, we help them to take a stand in public, to debate, to make oral presentation as well as to write essay with a specially designed methodology.
